INTERACTIVE TOOLS AND ACTIVITIES INCLUDED

LCD Display Unit

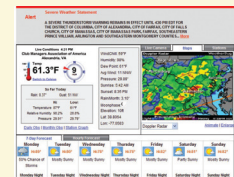

This bright, easy to read plug-and-play LCD display can scroll and report the following in real-time from your school's weather station: current conditions, 3-day forecast, live camera, Doppler radar, and local NWS weather alerts.

Safety Alerting Tool

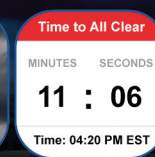

Receive weather alerts the moment they are issued by the National Weather Service with ad-free software. Access to weather forecasts, live Doppler radar, air quality and pollen reports.

Online Weather Center

Turn your website into a source of valuable information for visitors and staff. Empower operational decisions with a school branded, centralized view of all your weather data.

ADD WEATHERBUG TOTAL LIGHTNING TO ANY EQUIPMENT PACKAGE

The Standard in Lightning Detection and Early Warning Systems

- Lightning Sensor • Lightning Visualization and Alerting Platform
- WeatherBug Email Alerts • Indoor Alerting Device (optional)
- Outdoor Alerting System and Countdown Clock (optional)

All equipment packages come with a comprehensive one-year warranty. Professional installation is available upon request. To become part of the WeatherBug Schools Program, call an Education Representative at 1-800-544-4429, Ext. 2 or visit www.weatherbugschools.com and complete the contact form.
